IATSE LOCAL 8

PROFILE

Union stage technician and crew lead with nine plus years across arena, theatrical, corporate, and broadcast environments. Deep experience with IMAG systems, LED wall deployment, production switching, projection, and video signal routing alongside full lighting operations. Proven track record coordinating local crews and integrating touring production teams at major Philadelphia venues including The Mann Center. Freelance portfolio spans NASA/Kennedy Space Center, AT&T national events, and nationally televised political productions. IATSE Local 8 member known for reliable execution, calm troubleshooting, and cross department flexibility.

EXPERIENCE

Stage Electrician / Video & Lighting Technician
2016 — PRESENT

IATSE Local 8

- Operate IMAG, LED wall, and projection systems alongside lighting rigs for concerts, theater, and broadcast
- Serve as liaison between touring video/lighting leads and house infrastructure at major venues
- Lead and coordinate local stagehand crews across video, lighting, audio, and carpentry departments
- Manage signal distribution and routing for SDI, fiber, and multi universe lighting networks
- Support load in/load out operations and troubleshoot signal flow under show conditions
- Cross department flexibility: assist audio, carpentry, barricade, and general venue ops as needed

Owner / Video, Lighting & Teleprompter Technician
2022 — PRESENT

Digital Footprints LLC

- Provide video playback, LED integration, lighting, and teleprompter services for corporate, aerospace, and political clients
- Build show files and integrated video/lighting workflows for hybrid and broadcast events
- Operate production switchers and coordinate video feeds for multi camera productions
- Maintain and track professional video and teleprompter equipment inventory

Head Electrician
2019 — 2022

Lansdowne Theater

- Led all venue production operations including video, lighting, and electrical for concerts and touring acts
- Managed equipment inventory, fixture maintenance, and venue technical documentation
